

Individual eHours

Extension Hours must be Program Related and will require a reflection of the activity, along with a photo and an adult signature. Always seek clarification on whether an activity is “Program Related” if it is uncertain.

Examples:

- Documentaries (10hrs/Semester)
- Green Tech Journals (10hrs /Semester)
- Nature Journal (10hrs/ Semester)
- Energy Journal (10hrs/ Semester)
- Book Reviews (10hrs / Semester)
- Green Tech Related Vacation
- Touring generation facilities
- Interviewing a Professional
- Career shadowing
- Green Tech Graduations
- Scout Projects
- Community Fundraisers
- Attending environmental events
- Attending legislative or regulatory hearings
- Various Green Tech Competitions
- Check with instructor for approval of other options

School eHours

Extension Hours must be Program Related and have a signature after completion.

Examples:

- After School service to the program
- Program related clubs or organizations
- Assisting with Open House Night
- Advisory Council Presentations
- JCCC 8th Grade Career Fair
- Attending Senior Presentations
- Field trips outside school hours

Summer eHour Opportunities

Students will have the opportunity to earn significant amounts of eHours over the summer. Previously, the Green Tech Academy went on a summer seminar trip to Colorado where students earned 50 eHours. In the future, there will be other summer seminar trips along with summer camps that students can help with to earn eHours.

- Summer Seminar trips are a way for students to earn upto 60 eHours
- Summer camps at Olathe West in the Green Tech Academy over the summer are another example of eHour opportunities
