

**Special Guest: Jason Bohn, Clinical Director,
Adolescents - The Anxiety Center at Renew**

Anxiety Disorders

Tuesday, January 15, 2019

7 p.m.

Technology Support Center

14250 South Black Bob Rd.

Join us for the opportunity to learn from an expert, ask questions, and participate in follow-up discussions focusing on:

Anxiety Disorders

Panic Attacks

Social Anxiety

Phobias

OCD and PTSD

Anxiety disorders affect 30% of adolescents in the United States. The Anxiety Center at Renew located in Olathe opened the Two Tents Intensive Outpatient Program for 12-17 year olds facing anxiety issues who need more than weekly therapy. Jason Bohn, Clinical Director, will speak to some of the underlying causes of anxiety and strategies families can consider to build resiliency. Jason has spent the last 28 years in clinical, community and administrative positions learning about and serving children, adolescents and families. His experience working with families led to wide transformation initiatives for child welfare nationally and homelessness across the KC metro.

Come, learn and discuss how the Two Tents tactical cycle of finding acceptance, understanding change and taking initiative can help your adolescent with anxiety.

*Presented in partnership with the Behavioral Health Awareness Alliance. More information - Dr. John Laffoon, Director of Special Services (913) 780-8170.
No RSVP required. No child care will be provided.*
